

## **“Intra-Aortic Balloon Counterpulsation Therapy” Program Accreditation**

Datascope is pleased to provide you with this self-paced learning program on Intra-Aortic Balloon Counterpulsation Therapy. The clinician has the flexibility to complete the program at a time that is convenient for them and at a pace that is conducive to individual learning needs.

**This program has been approved by the American Association of Critical Care Nurses (AACN) for 1.5 contact hours; CERP Category A.**

To receive a certificate for contact hours, a completed Post Test **AND** Program Evaluation must be submitted. At the completion of the program, select POST TEST from the menu options. It is important to note that there is no return to the Main Menu until the Post Test is then completed. When the Post Test is completed, you must provide the required contact information and then select “Continue to Program Evaluation”. To receive a certificate for contact hours, both the Post Test and Program Evaluation must be submitted together.

The Test Results and Evaluation may be submitted using one of the following options:

Directly from the e-learning module on the Datascope website

Email: [clinicalservices@datascope.com](mailto:clinicalservices@datascope.com)

FAX: 1.973.244.6245

Mail: Datascope Corp.

Attention: Clinical Services

15 Law Drive

Fairfield, NJ 07004-0011

A certificate of completion will be sent to you within seven to ten business days of receipt of all required documentation.
